STATEMENT OF RoHS COMPLIANCE – 02-25-13

Introduction

In order to comply with the European Union’s laws on Waste Electrical and Electronic Equipment (WEEE) and the Restriction of Hazardous Substances (RoHS), XFMRS, Inc. is currently investigating, evaluating, and qualifying our raw materials.

These measures are being taken to ensure that products sold by July 1, 2006 are in compliance with the above regulations.

Background

On February 13, 2003 the WEEE and RoHS directives became European Laws. These laws must be implemented by the member states by August 13, 2004. By July 1, 2006 all electronic and electrical equipment and components placed on the market can not contain any of the following elements in amounts greater than allowed by the law or by standards in industry:

Lead (Pb)	Diisobutyl phthalate (DIBP)
Mercury (Hg)	DNOP
Cadmium (Cd)	DINP
Hexavalent Chromium (Cr (VI))	DIDP
Polybrominated Biphenyls (PBB)	Hexabromocyclododecane (HBCDD)
Polybrominated Diphenyl Ethers (PBDE)	Pentadecafluorooctanoic acid (PFOA)
Bis(2-ethyl(hexyl)phthalate (DEHP)	PFOS
Benzyl butyl phthalate (BBP)	Diisobutyl phthalate (DIBP)
Dibutyl phthalate (DBP)	

Current Status

All raw materials are being identified for RoHS compliance by coordination and communication with all XFMRS, Inc. vendors. Materials that meet compliance will substitute all materials that are found to be not in compliance.

XFMRS, Inc. is conscious of ongoing issues still pending further clarification and therefore maintains close observation of developments in industry and government. Examples of these developments include definitions concerning maximum contaminant levels allowed. XFMRS, Inc. will continue to ensure a smooth conversion into RoHS compliance by keeping actively in touch with its vendors and customers.

In addition, XFMRS, Inc. has initiated a Lead-Free program. This program allows for the provision of Lead-Free components.

Availability of such components is dependant on the request of the customer. XFMRS, Inc. will continue to increase the capacity for Lead-Free manufacturing as the demand in the market grows.

XFMRS, Inc. is also 100% in compliance with all legislation that concerns materials that are hazardous and ozone depleting. Currently any product XFMRS manufactures is available Lead Free.

Ask you’re inside sales contact for further details.

Addendum 1 (6/17/08)

In accordance with the European Commission Decision of 13 October 2005 (2005/717/EC) XFMRS, Inc does not use Deca BDEs in its products.

F.G part number: XF0166-PLC12S/XFATM9-COMBO1-4S/XF0023P-EFD20R/XF0684-HPCMC2
